

Ingeo™ Lined Clamshell Containers

The BagasseWare® Ingeo Lined Clamshell Containers are made from bagasse (the fibrous pulp that remains after the juice is extracted from sugarcane) a sustainable and annually renewable resource. They have a moisture-proof Ingeo™ lining that is also derived from plants rather than petrochemicals. The lining gives the container superior grease and moisture resistance and ensures it retains its original shape and rigidity when in contact with hot, wet foods.

BagasseWare® clamshells are biodegradable and 100% commercially compostable in a municipal or commercial compost facility. They are the perfect earth-friendly alternative to Styrofoam or starch-filled polypropylene containers.

- **Elemental chlorine-free bleached**
- **Produced from renewable plant products with short growing cycles**
- **Moisture-proof Ingeo lining**
- **Microwave and freezer safe**
- **Oil and grease resistant**
- **ASTM D6400 certified compostable**

Item #	Description	Inner Pack	Case Pack
357-DPLA18	1 - Compartment (7.9 x 8 x 3.2")	2/80	160
357-DPLA38	3 - Compartment (7.9 x 8 x 3.2")	2/80	160
357-PLA19	1 - Compartment (9 x 9 x 3.2")	2/80	160
357-PLA39	3 - Compartment (9 x 9 x 3.2")	2/80	160
