

FiberPac Lunch Box with Window

FiberPac Lunch Boxes are ideal for luncheons, corporate meetings, outdoor parties and much more. They are an attractive and efficient way to provide a complete meal to a large group, without the hassle of self serve catering trays. The boxes stack neatly and have a large window to display its contents.

Made from 100% recycled fiberboard (35% post consumer waste), a fiber acetate window and printed with vegetable based inks. With the window removed the box can be recycled, the window can then be composted in municipal and industrial aerobic composting facilities.

Measurement: 9 1/4" x 7 3/8" x 3 1/8"
