

# Kraft Hot Cups

## Lined with compostable Ingeo™

Kraft Hot Cups are made of three layers, a brown kraft paper on the outside, white paper on the inside and an Ingeo™ lining. The 2-ply paper offers greater insulation than a standard disposable hot cup and generally eliminates the need for a coffee sleeve. The Ingeo moisture-proof lining offers further heat resistance and is plant based. Making these cups biodegradable and 100% compostable.

- **Elemental Chlorine-free**
- **Biodegradable**
- **100% compostable**
- **Made from renewable, sustainable, plant-based resources**
- **Ingeo lining is derived from corn grown in the USA**

Matching Ingeo Compostable lids are also available.
