# The Bakery Edition

## Made for the case, *the counter and the box.*

Liners for the oven, bags that show off the bake, bread bags with a window, and the coffee bar beside the case.

25 product lines · 145 items · 86% compostable

**(800) 317-2737** · www.excellentpackaging.com/catalog/bakery

INSIDE THIS EDITION

Bakery packaging has two jobs: protect what you made, and sell it. Parchment and tulip cups for the oven. Clear cellulose bags and window boxes that let the bake do the talking. Pinched-bottom bags with a window for a batard, and a 22 inch bag for the wholesale baguette run.

Most of it is compostable, and the NatureFlex bags are marked home compostable. Every item shows what it's made from, what it can hold and where it goes after.

How to order

Numbers are product lines. Every part number in this PDF links to its page online.

USING THIS EDITION

01

### Find what you use

Chapters follow the way a kitchen like yours works. Each product line shows its sizes, case packs and the lids that fit.

02

### Check the icons

Four rows tell you what it's made from, what it can hold, what else it offers and where it goes after. Exceptions are marked on the item.

03

### Tap a part number

Every part number links to the item online, where you can add it to a quote list. A person at EPS prices it for your volume.

| PRODUCT LINES | ITEMS | COMPOSTABLE |
|---|---|---|
| 25 | 145 | 86% |

QUICK-GLANCE ICONS

# How to read the icons

Every product line carries the same four rows of icons as our printed catalog: what it's made from, what it can hold, what else it offers, and where it goes when you're done with it. Exceptions, like a lid that isn't compostable, are marked on the item itself.

## WHAT IT'S MADE FROM

- **Ingeo PLA.** NatureWorks' Ingeo is made from renewable, domestically grown resources. It's carbon neutral and uses up to 68% less fossil fuel energy than traditional plastics.
- **Plant starch.** A biopolymer made from plant starch.
- **Natural fibers.** Annually renewable plant fibers and agricultural leftovers, including bagasse, bamboo, bulrush, sugarcane and wheat.
- **Wood fiber.** Wood and wood pulp harvested from sustainably managed forests.
- **Recycled content.** Made with recycled material. Where the catalog prints a percentage, it's shown beside the icon.

## WHAT IT CAN HOLD

- **Hot foods.** Safe for hot foods and drinks.
- **Cold foods.** Safe for cold foods and drinks.
- **Microwave safe.** Can go in the microwave.
- **Freezer safe.** Can go in the freezer.

## WHAT ELSE IT OFFERS

- **Custom print.** Can be printed with your logo. Minimums and colors are listed with each item.
- **BPI certified.** Certified compostable by the Biodegradable Products Institute.
- **GMO free.** Made without genetically modified materials.
- **Cradle to Cradle.** Assessed against the Cradle to Cradle standard for safety to people and the environment, and for how the product and its manufacturing are run.
- **Made in the USA.** Manufactured in the United States.
- **No added PFAS.** Made with no added PFAS (the catalog notes this for World Centric's fiber clamshells).

## WHERE IT GOES AFTER

- **Home compostable.** Breaks down in a home compost bin.
- **Commercially compostable.** Breaks down in a commercial composting facility. Check with your city for a facility near you; not suited to a backyard bin.
- **Recyclable.** Goes in the recycling.

CHAPTER 01

# The oven

Unbleached parchment that cuts to fit any pan, and tulip cups in three sizes that go from the oven straight to the case.

PAN LINERS & BAKING CUPS · CATALOG P. 13

## Chrome-free pan liner

CHAPTER 07

# Close

Compostable liners, plant-based soaps and cleaners, and towels for the bench.

ECOSAFE · CATALOG P. 32

## EcoSafe 6400 compostable can liners

Unlike plastic bags that last for centuries, EcoSafe 6400 liners break down completely in a municipal or commercial composting facility. Made in the USA, BPI certified and Cedar Grove Composting approved: the bag for your compost bin.

MADE FROM: Ingeo PLA

FEATURES: BPI certified · Made in the USA

GOES TO: Commercially compostable
