The Catering Edition

Trays that travel, coffee that stays hot, *a table that looks set.*

Family-style bowls and platters, boxed lunches, coffee service by the gallon and tableware worth photographing.

33 product lines · 154 items · 76% compostable

(800) 317-2737 · www.excellentpackaging.com/catalog/catering

INSIDE THIS EDITION

Catering is packaging under pressure: a party-size salad in the back of a car, coffee for forty that has to arrive hot, a buffet that has to look as good at two o'clock as it did at noon. This edition is chosen for that.

The pulp bowls and platters stack because their lids lock to the one above. Boxed lunches have a window so the client sees what they ordered. Palm leaf and Diamond Collection plates make a disposable table look set. Add what you need for your next job and we'll price it by the case.

How to order

Numbers are product lines. Every part number in this PDF links to its page online.

USING THIS EDITION

01

Find what you use

Chapters follow the way a kitchen like yours works. Each product line shows its sizes, case packs and the lids that fit.

02

Check the icons

Four rows tell you what it's made from, what it can hold, what else it offers and where it goes after. Exceptions are marked on the item.

03

Tap a part number

Every part number links to the item online, where you can add it to a quote list. A person at EPS prices it for your volume.

PRODUCT LINES	ITEMS	COMPOSTABLE

QUICK-GLANCE ICONS

How to read the icons

Every product line carries the same four rows of icons as our printed catalog: what it's made from, what it can hold, what else it offers, and where it goes when you're done with it. Exceptions, like a lid that isn't compostable, are marked on the item itself.

WHAT IT'S MADE FROM

- **Ingeo PLA.** NatureWorks' Ingeo is made from renewable, domestically grown resources. It's carbon neutral and uses up to 68% less fossil fuel energy than traditional plastics.
- **Plant starch.** A biopolymer made from plant starch.
- **Natural fibers.** Annually renewable plant fibers and agricultural leftovers, including bagasse, bamboo, bulrush, sugarcane and wheat.
- **Wood fiber.** Wood and wood pulp harvested from sustainably managed forests.
- **Recycled content.** Made with recycled material. Where the catalog prints a percentage, it's shown beside the icon.

WHAT IT CAN HOLD

- **Hot foods.** Safe for hot foods and drinks.
- **Cold foods.** Safe for cold foods and drinks.
- **Microwave safe.** Can go in the microwave.
- **Freezer safe.** Can go in the freezer.

WHAT ELSE IT OFFERS

- **Custom print.** Can be printed with your logo. Minimums and colors are listed with each item.
- **BPI certified.** Certified compostable by the Biodegradable Products Institute.
- **GMO free.** Made without genetically modified materials.
- **Cradle to Cradle.** Assessed against the Cradle to Cradle standard for safety to people and the environment, and for how the product and its manufacturing are run.
- **Made in the USA.** Manufactured in the United States.
- **No added PFAS.** Made with no added PFAS (the catalog notes this for World Centric's fiber clamshells).

WHERE IT GOES AFTER

- **Home compostable.** Breaks down in a home compost bin.
- **Commercially compostable.** Breaks down in a commercial composting facility. Check with your city for a facility near you; not suited to a backyard bin.
- **Recyclable.** Goes in the recycling.

CHAPTER 01

Family style

Pulp bowls up to 240 oz and square platters to 16 in, with lids that lock and stack, plus foil pans that go from the oven to the steam table.

BAGASSEWARE · CATALOG P. 14

BagasseWare catering bowls and platters

Sturdy pulp bowls and platters for serving large groups. Channels in the base draw moisture away so food stays fresh, and the clear recyclable PET lids lock onto the container above, so trays stack and travel without sliding.

MADE FROM: Natural fibers

HANDLES: Hot foods, Cold foods

GOES TO: Commercially compostable, Recyclable

Bowls

385-42120	120 oz pulp bowl (11 x 11 x 3.71 in)	50/cs
385-512080	PET lid for 120 oz pulp bowl	50/cs
385-42160	160 oz pulp bowl (14 x 14 x 2.8 in)	25/cs
385-42240	240 oz pulp bowl (14 x 14 x 4 in)	25/cs
385-51224	PET lid for 160 and 240 oz pulp bowls	25/cs

Platters

385-49112	12 in square pulp platter	25/cs
385-52912	PET dome lid for 12 in platter	25/cs
385-49114	14 in square pulp platter	25/cs
385-52914	PET dome lid for 14 in platter	25/cs
385-49116	16 in square pulp platter	25/cs
385-52916	PET dome lid for 16 in platter	25/cs

* PET lids are recyclable, not compostable.

SERVICE · CATALOG P. 15

Foil pans

A catering staple. These pans go from the oven to the steam table, so setup and teardown are a breeze.
