The Coffee Shop Edition

Everything that leaves *the bar.*

Hot cups and the lids that fit them, iced drinks, the condiment bar, the pastry case and the beans that go home in a bag.

31 product lines · 152 items · 84% compostable

(800) 317-2737 · www.excellentpackaging.com/catalog/coffee

INSIDE THIS EDITION

A coffee bar runs on a handful of things it can't run out of: the 12 ounce cup, the lid that fits it, a sleeve, a stir stick, the oat milk. This edition starts there and works outward, from the espresso machine to the pastry case to the bag your beans go home in.

Every cup sits beside the lids that fit it. Every item shows what it's made from, what it can hold and where it goes when your customer is done with it. Add anything to a quote list and a person at EPS prices it for your volume.

CONTENTS

Numbers are product lines. Every part number in this PDF links to its page online.

USING THIS EDITION

01

Find what you use

Chapters follow the way a kitchen like yours works. Each product line shows its sizes, case packs and the lids that fit.

02

Check the icons

Four rows tell you what it's made from, what it can hold, what else it offers and where it goes after. Exceptions are marked on the item.

03

Tap a part number

Every part number links to the item online, where you can add it to a quote list. A person at EPS prices it for your volume.

PRODUCT LINES	ITEMS	COMPOSTABLE
31	152	84%

QUICK-GLANCE ICONS

How to read the icons

Every product line carries the same four rows of icons as our printed catalog: what it's made from, what it can hold, what else it offers, and where it goes when you're done with it. Exceptions, like a lid that isn't compostable, are marked on the item itself.

WHAT IT'S MADE FROM

- **Ingeo PLA.** NatureWorks' Ingeo is made from renewable, domestically grown resources. It's carbon neutral and uses up to 68% less fossil fuel energy than traditional plastics.
- **Plant starch.** A biopolymer made from plant starch.
- **Natural fibers.** Annually renewable plant fibers and agricultural leftovers, including bagasse, bamboo, bulrush, sugarcane and wheat.
- **Wood fiber.** Wood and wood pulp harvested from sustainably managed forests.
- **Recycled content.** Made with recycled material. Where the catalog prints a percentage, it's shown beside the icon.

WHAT IT CAN HOLD

- **Hot foods.** Safe for hot foods and drinks.
- **Cold foods.** Safe for cold foods and drinks.
- **Microwave safe.** Can go in the microwave.
- **Freezer safe.** Can go in the freezer.

WHAT ELSE IT OFFERS

- **Custom print.** Can be printed with your logo. Minimums and colors are listed with each item.
- **BPI certified.** Certified compostable by the Biodegradable Products Institute.
- **GMO free.** Made without genetically modified materials.
- **Cradle to Cradle.** Assessed against the Cradle to Cradle standard for safety to people and the environment, and for how the product and its manufacturing are run.
- **Made in the USA.** Manufactured in the United States.
- **No added PFAS.** Made with no added PFAS (the catalog notes this for World Centric's fiber clamshells).

WHERE IT GOES AFTER

- **Home compostable.** Breaks down in a home compost bin.
- **Commercially compostable.** Breaks down in a commercial composting facility. Check with your city for a facility near you; not suited to a backyard bin.
- **Recyclable.** Goes in the recycling.

CHAPTER 01

The hot bar

Paper cups lined with plant-based Ingeo instead of plastic. Single wall when you sleeve, double wall when you don't, and PLA or fiber lids that compost with the cup.

KARAT EARTH BY LOLLICUP · CATALOG P. 6

Karat Earth hot cups

A bio-based, earth-friendly alternative to the plastic-lined paper hot cup, made from renewable, plant-based resources with a moisture-proof Ingeo PLA lining. Plain white, or with Karat Earth's "One Cup, One Earth, One Choice" stock print on the front and a compostable mark on the back.

MADE FROM: Ingeo PLA · Wood fiber

HANDLES: Hot foods

FEATURES: Custom print · BPI certified

GOES TO: Commercially compostable

Your logo on it: from 50,000 pieces · 1–4 colors
